Job Application for Software Engineer

To whom may concern,

About Me

I am a Roboticist and Research Associate at NCART, at Ryerson university. My work is focused on Autonomous robots, obstacle avoidance, path planning, Navigation, Localization, and SLAM using fusion sensors. Born and raised in Tehran, Iran, captivated by technology development, science and power of collaboration. Moved to Toronto after B.Sc. in Electrical Engineering from Shahid Beheshti University. I worked at SDI Marketing as a Lead advisor at TMS location for 3 years. Meanwhile started my research on Smart Joint Methods at McMaster University along other researches. Thereafter, I joined Network-Centric Applied Research Team (NCART) as an research assistant under supervision of Prof. Alex Ferworn. Graduate assistant at Ryerson and Contract faculty at Fleming college. My other research interests includes, Machine Learning, Computer vision, and hardware design.

Why Clearpath Robotics?

Why Me?

Sincerely,

Omid Karimpour
